

Book Review Presentation By Teachers

As part of best practice in library, which promotes reading habit and use of library resources, a Book Review Presentation for teachers has been initiated by Dr. Rizvi Digital Library, where all teachers are required to read books available in the library and give review about the book selected, on assigned days in front of all faculty members. Teachers can refer these books to their student's and encourage them to inculcate reading habit. The reviewed books details are available on library website. The first Book review presentation was held on 5th January 2023.
