An amazing story of the protagonist named as Millie. The story takes place as Millie came into the frame looking for job opportunities after surviving the tragedy she faced.

On the other side the story turns when Nina Winchester starts her part. The twist and turn of the plot excites the reader in me. A child who was playing an important role called Cecelia Winchester. An innocent yet mysterious kid who has thrilled the story in her way. On the other hand, the story revolves around Andrew Winchester. The wealthy, successful, extremely handsome man who loves his dear wife so much.

The Tale is all about Manipulation, love, deceit, survival and at last Karma.

The overview is short and simple. The thriller will excites and I bet you'll have fun.

From behind closed doors,  
she sees everything.
